AMENDMENTS TO THE SPECIFICATION

Please replace paragraph [0048] with the following amended paragraph:

[0048]   Figure 3 shows in diagrammatic form a user terminal UT for a satellite navigation system 3, a single navigation satellite of which is shown by way of example in Figure 3. The user terminal features a receiver unit RU1 and a data processing unit DPU1 for receiving and for processing navigation data blocks NAV1, NAV2. The data processing unit ~~DPU~~ DPU1 is embodied to recognize and to process data blocks 1 of integrity messages INTEGRITY and to restore the original integrity messages INTEGRITY therefrom as shown in Figure 1 and 2. These can then be stored in a data storage (not shown) of the user terminal which can then be used for the further operation of the user terminal when necessary.
